

### Tucci

Dr. David Regan had a specific vision for his first restaurant project. To get it just right, Norwest worked with him to evolve the design throughout the project. The challenge for the contractor was not only to share the owner's vision but also to maintain a commitment to achieving it.

***"Norwest was fantastic and they did a fabulous job. Everyone from the company and all their subcontractors were the best. We wanted our restaurant to present a certain image, and they all bent over backwards to make sure everything was done right. Long hours, changes (even the ones we requested), whatever it took—they did everything promptly and professionally. On top of that, they were really nice people. Norwest is a great company."***
